Mission Statement

JUCM The Journal of Urgent Care Medicine supports the evolution of urgent care medicine by creating content that addresses both the clinical practice of urgent care medicine and the practice management challenges of keeping pace with an ever-changing health-care marketplace. As the Official Publication of the Urgent Care Association of America and the Urgent Care College of Physicians, JUCM seeks to provide a forum for the exchange of ideas regarding the clinical and business best-practices for running an urgent care center.

JUCM The Journal of Urgent Care Medicine (JUCM) makes every effort to select authors who are knowledgeable in their fields. However, *JUCM* does not warrant the expertise of any author in a particular field, nor is it responsible for any statements by such authors. The opinions expressed in the articles and columns are those of the authors, do not imply endorsement of advertised products, and do not necessarily reflect the opinions or recommendations of Braveheart Publishing or the editors and staff of JUCM. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested by authors should not be used by clinicians without evaluation of their patients' conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with the recommendations of other authorities.

WELCOME

To the 2020/2021 *Urgent Care Buyer's Guide!*

The urgent care community has been expanding and evolving continuously for decades now. At first that was a matter of survival—grow or die. The entrepreneurial physicians who were the forefathers of our industry chose to grow and build a marketplace that few could have anticipated.

Urgent care's success soon drew the attention of venture capitalists and health-care systems. They bought existing urgent care operations or launched their own and changed the profile of what an urgent care ownership team looked like. Economies of scale changed, as did the need for access to more sophisticated equipment. X-ray machines went from a luxury that set a practice apart to an essential investment if one wanted to stay competitive. Now point-of-care ultrasound machines are becoming more common. And who can say what's next?

This past year, all medical practices—our entire society, in fact—have been faced with a challenge unique in our lifetime. Again, urgent care has responded by assessing the needs of the patients and communities they serve and coming up with innovative ways of meeting them. As always, the emphasis has been on delivering convenient, quality care in a cost-effective manner.

What hasn't changed is that every urgent care center in the U.S. needs trusted partners that can meet *their* needs. And that's where the *Urgent Care Buyer's Guide* shines. We want to help you find each other. So, the publication you're reading right now is replete with information on willing partners who are eager to support your quest to not only keep pace with our changing world, but to help you stay ahead of the curve.

Once you look further, you'll find more than 300 vendors in more than 70 categories, each reflecting expertise and solutions to the challenges you face every day. They're here for you because you're there for your patients. (And the same goes for us; if the *Urgent Care Buyer's Guide* has helped you connect with a vendor who meets your needs, let us—and them—know you found them here!)

How to Use This Guide

No matter how you're reading the guide right now, be aware that it's available in several formats—print, PDF, or online—to suit your needs at any time. This way, it's available to you at a moment's notice no matter where you are. You can download the PDF version of the UCBG to any or all of your devices by going to the Issues section of www.jucm.com. If you want to find the information online, you'll find everything you need on our companion website, www.UrgentCareBuyersGuide.com.

Help Us Get Better in Order to Serve You Better

Like the urgent care industry itself, this guide is constantly evolving to reflect evolving market conditions. We hope this year's edition fulfills that vision. If there are ways we can improve its accessibility or the range of potential partners you'd like to see, or can foresee new categories we should feature, please let me know.

Thank you for reading the *Urgent Care Buyer's Guide*—and supporting urgent care-friendly vendors!

Credentialing & Contracting

With QuickCred, you don't need to be a credentialing expert to use our system. QuickCred's intuitive platform will allow you to perform primary source verifications, background checks, auditing, re-credentialing, and payer enrollments as well as provider privileging. Some of QuickCred's powerful features include:

Staff Training

Train your staff online on key healthcare topics such as CPR, Wound Care treatment, or the Opioids Crisis. Track their progress and provide them with CME units with MedTrainer's Learning module. Courses can be assigned depending on location, department, or position, and are tailored to ensure conformity with OSHA, HIPAA, and HHS standards.

Simplified Accreditation

Meet and exceed accreditation standards from most accrediting bodies with MedTrainer. Joint Commission, AAAHC, AAAASF, HFAP and others set far-reaching expectations for ASCs to meet their standards, MedTrainer does the legwork and stays current with their standards, as well as Medicare and CMS requirements.

Compliance Management

Digitally manage all compliance tasks from an easy-to-use platform. MedTrainer streamlines the process of credentialing and accreditation as well as internal document, contract, and equipment management on a completely cloud-based solution. Keep up with ever-changing regulations and never miss a credentialing due date.

EXPERITY

experityhealth.com

Experity Clinic streamlines operations.

Connected solutions. Built for urgent care.

Integrated with our practice management solution, our EMR was developed specifically for urgent care to streamline workflows, enhance data accuracy, eliminate friction, and give providers space to connect with patients.

Running your urgent care operation should be friction-free, flexible, and efficient. **Experity Clinic** is the cornerstone of our care-specific platform and the Connected Clinic. It frees up your time to focus on your patients and empowers your clinics and staff with intuitive, connected technology and services for improved outcomes.

Transform your clinic, business, and community with the only solutions purpose-built for urgent care success.

Let's connect.

RCM TRANSFORMATION FOR URGENT CARE CENTERS

SYNERGEN HEALTH's end-to-end Revenue Cycle

SYNERGEN Health is a technology-enabled solutions company that drives sustainable improvements to reduce operating costs, maximize cash-flow, optimize payer-provider collaboration, and enhance the patient experience.

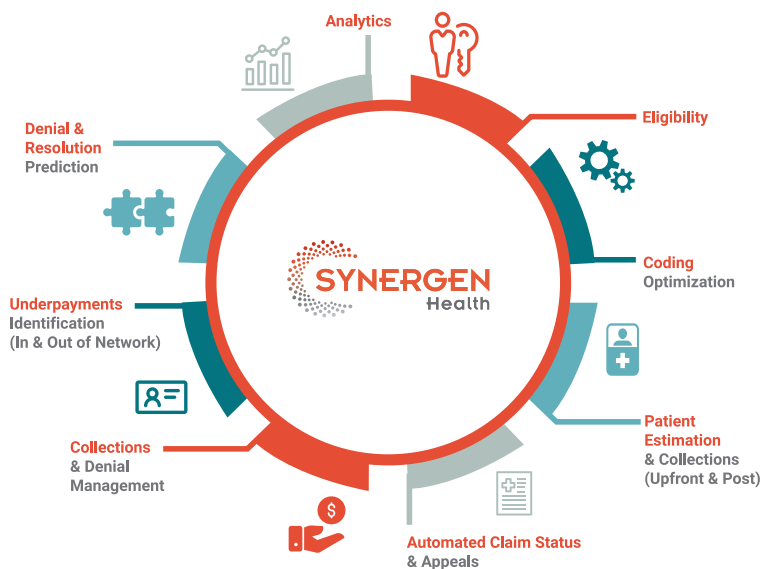

YOUR CHALLENGES

- >10 Days from Date of Service to Claim Submission
- >25% Claims Unresolved at 90 Days
- >20% Revenue Loss Per Visit Due to Lack of Coding Compliance
- >10% Cost of Overall Revenue to Maintain and Manage In-House Revenue Cycle

ARE YOU PERFORMING AT THIS LEVEL

- >99% of the Claims Resolved by 90 Days
- <17 Days in Accounts Receivable
- >\$150 Average Revenue Per Visit
- >97% of First Time Payment Rate

REVENUE CYCLE TRANSFORMATION

POWERED BY ROBOTIC PROCESS AUTOMATION, MACHINE LEARNING & ARTIFICIAL INTELLIGENCE

WHY SYNERGEN HEALTH ?

- ✓ Customized roadmap for Revenue Cycle Transformation
- ✓ Innovative data insights and Technology solutions.
- ✓ Add Artificial Intelligence and Robotic Process Automation to your Revenue Cycle Process
- ✓ Dedicated Account Managers and Teams
- ✓ Complete Visibility through Advanced Analytics
- ✓ Ability to scale rapidly as you grow

Connected solutions. Built for urgent care.

Transform your clinic, business, and community with the only solutions purpose-built for urgent care success.

Running your urgent care operation should be friction-free, flexible, and efficient. Using Experity's urgent care-specific platform frees up your time to focus on your patients and empowers your clinics and staff with intuitive, connected technology and services for improved outcomes.

Streamline operations

From initial contact with a patient, tracking information through the entire visit, and streamlining billing and feedback, Experity's **connected clinic** streamlines urgent care operations—start to finish.

Optimize revenue

Financial success depends on optimized business performance. Experity's **connected business** leverages proven processes, informed decision-making, and modern billing solutions to help clinics stay profitable.

Elevate healthcare

While urgent care draws from global resources and shared information, it's a business that serves local communities. Through our **connected community**, we empower our business partners to connect their neighborhoods and the world.

Your clinic, business, and community. **Connected.**

TRACKING

Flu is on the horizon

bringing the potential to make a critical situation worse.

With the incoming flu season the need to **TEST** and **TRACK** multiple respiratory infectious diseases **quickly, easily** and **accurately** will be greater than ever.

Sofia® SARS Antigen FIA and Sofia Influenza A+B FIA can be deployed practically anywhere, providing an effective first line of defense at your POC, (wherever that happens to be).

Flu A+B and SARS-CoV-2 TESTING and TRACKING

A crucial part of the POCT landscape.

+ **Accurate, objective and automated** results in as few as **3 minutes for Flu and 15 minutes for SARS-CoV-2 Antigen**

+ **Flexible, dual mode testing for high throughput** in a variety of testing environments

+ **Automated tracking, data capture and government reporting**

+ **Exclusive disease mapping with Virena®**

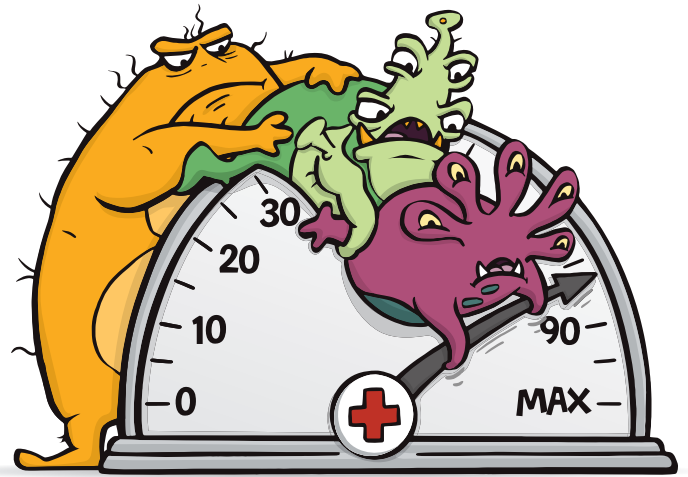

Sofia®
SARS Antigen FIA
Influenza A+B FIA

To find out how you can make **Sofia SARS Antigen FIA** and **Sofia Influenza A+B FIA** part of your POCT landscape, call Quidel Inside Sales at **858.431.5814**.

[quidel.com](https://www.quidel.com)

Take your urgent care to the max.

Improve patient flow with syndromic respiratory disease testing from BioFire.

With 53% of urgent care patients experiencing respiratory symptoms, making an accurate diagnosis can be difficult.¹ A molecular syndromic test—simultaneously testing for several pathogens in about one hour—can help identify the probable cause, fast. The CLIA-waived BioFire® FilmArray® Respiratory EZ (RP EZ) Panel simultaneously tests for 11 viral and 3 bacterial respiratory pathogens in your clinic in about an hour.

Improve Operational Efficiency

Each test takes just two minutes of hands-on time and one small sample to provide results in an hour. Streamlining your workflow with the BioFire RP EZ Panel has been shown to reduce appointment duration.²

Prescribe the Right Treatment

Nearly 50% of all urgent care prescriptions are for antibiotics, despite most of these prescriptions being for acute respiratory conditions for which antibiotics are not recommended or effective.³ Comprehensive results from the BioFire RP EZ Panel can help support antibiotic stewardship and have demonstrated an increase in the occurrence of appropriate treatment.²

Reduce Costs of Unnecessary Tests

Pooled sensitivity of rapid antigen Flu A/Flu B tests is only 62.3%, making them less accurate than PCR, which may lead to return visits and additional tests.⁴

biofiredx.com/point-of-care

Syndromic Testing: The Right Test, The First Time.

~~PERHAPS~~ IT'S THE FLU.

CLIA-waived, lab-quality Influenza A/B, RSV and Strep A testing at the point of care.

No confirmation necessary for negative test results.

The **cobas**[®] Liat[®] PCR System is the only real-time PCR system with three CLIA-waived tests that can be performed in 20 minutes or less. It's specifically designed for the point-of-care use— so in just three easy steps, clinicians can get accurate, actionable results that help them make the right treatment faster.

Go to cobasliat.roche.com for more information.

THE TIME IS NOW

RAPID HIV AND HEPATITIS C TESTING ANYTIME, ANYWHERE, MADE EASY

Detection is the first step to prevention, and one of the best ways to diagnose and help stop the spread of HIV and Hepatitis C is with OraQuick®.

The OraQuick ADVANCE® Rapid HIV-1/2 Antibody Test is a rapid HIV test that offers several specimen types including oral fluid, fingerstick whole blood, venipuncture whole blood and plasma.

The OraQuick® HCV test is the only point-of-care hepatitis C test on the market today, detecting HCV antibodies in fingerstick and venipuncture whole blood.

When utilized together both tests form the **OraQuick rapid point-of-care platform** that allows clinicians to batch tests and optimize each patient visit.

Patients presenting with respiratory symptoms can be difficult to diagnose. The CLIA-Waived BioFire® FilmArray® Respiratory Panel EZ (RP EZ) simultaneously tests for 14 pathogens in about one hour. As a healthcare provider, this means your patients can receive the right treatment the first time, potentially leading to higher patient satisfaction and lower costs.

Do more with ultrasound.

Front-line testing and patient management.

Better Diagnostic Outcomes. Improved Workflow. Increased Patient Satisfaction.

SONIMAGE HS1

Ultrasound First for Primary Imaging Solutions.

From the clinic to the bedside, the **SONIMAGE® HS1 Compact Ultrasound System** delivers the superior image quality and ease of use required for confident patient care decisions at the point-of-care. A full suite of probes allows the provider to scan a complete lung exam to evaluate shortness of breath, pneumothorax, and pleural effusion, as well as urinary retention, abdominal pain, MSK conditions, and effectively rule out DVT.

- Lightweight and portable, with a 5 year warranty
- Full suite of transducers for superficial and deep scanning
- Superior image quality for diagnosis
- Therapeutic needle guidance

With the advantage of real-time assessment, ultrasound may allow you to see more patients, assess them more quickly and comfortably, and move to treatment faster.

Ticks don't know the meaning of "Social Distancing."

Sofia 2 Lyme FIA: **CLIA-waived**
Results in minutes, at your point-of-care

With kids home and parents looking for things to do that include "social distancing," more families will take to the outdoors. The only thing, ticks don't play by the same rules, so Lyme disease could end up on the rise. **When patients aren't feeling well, anxiety levels could be especially high – and now more than ever they'll ask to be tested.** Sofia 2 Lyme FIA uses a finger-stick whole blood sample to provide accurate, objective and automated results in as few as 3 minutes, getting practitioner and anxious patient on a path to treatment much sooner.

- IgM and IgG differentiated results
- CLIA waived
- Point-of-care testing
- Less than 1 minute hands-on-time
- Accuracy comparable to laboratory testing methods

Sofia²
Lyme FIA

Emergency Eye Irrigation
The Morgan Lens provides emergency ocular irrigation to the cornea and conjunctiva. A convenient, efficient and an effective alternative to the conventional technique of "manual irrigation": holding the eyelids open while flushing with a stream of solution. Treat the patient at your Urgent Care Center rather than sending to the Hospital E.D. Call to place your order

Clinic setups without the setbacks

Whether you're undergoing new construction, remodeling or simply updating your equipment, a successful setup requires an experienced supplier who's been there before and knows how to get the job done.

McKesson's streamlined setup process is designed to help meet your timelines without disrupting your day-to-day, so you and your staff can stay focused on the people who need you most.

Our services include:

- Expert product consultations
- Your own McKesson Setup Coordinator
- Product assembly and placement
- Coordinated deliveries
- Removal of old products or trash
- Product storage for up to 30 days

Simplify your setup process and save valuable time.

To get started, call **866.625.2679** or visit

mms.mckesson.com/content/services-tools/clinic-setup-services.
